

WILLIAMS AND YANCEY START LONG-DEPARTURE FLIGHT FOR PORT

Cambridge Police to Be Courteous

By FRANKLIN COLLIER

At 90th Milestone

POPE REVEALS

Expect to Complete 4700-Mile Overseas Trip in 48 to 60 Hours

Continued from First Page

be the last land left behind, did not sight the plane.

Visibility was negligible at the Cape because of the shrouding.

Thousands of persons witnessed the start of the long-departed ocean trip.

From a point north of Cape Henry, Va., the big, silver-gleamed Bellanca soared down the beach, a small crowd of spectators gathered on the beach. She headed south, climbing, until an altitude of 500 feet was reached, when Williams swung her out over the ocean, her propeller pointed due east.

DISAPPEARS IN FOG

The light green of her fuselage and her bright silver wings merged with a heavy haze and she was lost to view of the beach watchers in a few minutes.

With her, as escort, flew three planes, a Coast Guard amphibian on her port, a small commercial plane on her starboard and a big commercial amphibian close behind her. The commercial planes turned back after 20 miles.

The Coast Guard amphibian remained with the Pathfinders for 10 miles, then swung away, and the Bellanca with its crew was alone on the distant trip.

READ FOR CAPE HABLE

When the coast guard plane left her, the Pathfinder was maintaining 500 feet altitude. Thereafter, she was expected to follow the 4700-mile trip.

From that point, known as the "Point of Departure," the plane was expected to follow the 4700-mile trip.

With two unsuccessful attempts against the elements, the plane was forced to land at the Cape.

REPORTED GOING STRONG

The navigator, who holds a master mariner's license, previously had announced that he had made an agreement with Dr. James H. Kimball, New York City, to make weather readings along the route, and accurate readings, especially in and near cloud formations.

The small commercial plane, first to return to the beach, was the one that the Pathfinder was "going strong" in clearing weather.

The air ministry's principal secretary, who first learned of the take-off from the Associated Press, expressed delight at the news.

He said an government files would be notified immediately to prepare a reception for the plane.

News of the take-off spread rapidly, because it came at the start of the hour, but as soon as aviation and government circles and the American colony learned of it, newspaper editors were busy with telephone queries.

Favorable Winds

New York, July 8 (AP)—Favorable winds, the essential factor in transatlantic flying, will aid the Pathfinder towards Rome.

James H. Kimball of the New York weather bureau said today.

However, the plane must battle its way through some fog along the coast and keep clear of the bank until more than 1600 miles from New York.

The five policemen arrived at the scene half a minute after he was dead. The slay was empty.

She Wanted to Fly, and So Does He Now

New York, July 8 (AP)—M. and Mrs. LeMoiné of Pittsford, N. Y., are planning to fly to Europe.

She wanted to learn to fly. He came to New York to learn. He followed. Both took solo flights the same day. Now they are going by a plane.

Earthquake Shakes Loyola Seismograph

New Orleans, July 8—An earthquake that continued for several hours and shook the city of New Orleans, Louisiana, was recorded by the seismograph of Loyola University here.

Dr. H. C. Abel estimated the quake occurred 3100 miles off the coast.

Pathfinder Crew Tried Other Atlantic Hops

Q. Williams and Lewis A. Yancey, the Pathfinder crew, have been identified with several long distance and transatlantic flight projects.

Williams was associated with Clarence Chamberlain in 1921 in an unsuccessful attempt to set a new endurance flight record.

Since it was chosen co-pilot with George Sabell, of the Roma, he flew to Rome in 1922 and was badly damaged.

The Pathfinder was formerly the Kool Star, owned by Mrs. James A. Billman, and was purchased a year ago by the Rome for a proposed transatlantic flight.

In 1928 he was forced down on a projected non-stop flight from New York to London.

Williams was associated with Clarence Chamberlain in 1921 in an unsuccessful attempt to set a new endurance flight record.

City Laborers Move for 5-Day Week

The question of a five-day week for city laborers, in place of the six-day week, was discussed at length at a meeting of the City Labor Union 140, held at 99 Washington St. As the result of the discussion a committee was appointed to wait upon the city to determine his attitude regarding granting his request to Boston's laborers.

During the discussion on the shorter workweek, it was pointed out that Boston city laborers are the only ones in the city who are not on a five-day week.

Boy, 15, Held Prisoner in North End House

A 15-year-old boy, so completely exhausted that he was hardly able to stand, was found today in a room in a house in North End, Boston, after nearly three months, was picked up by a police officer on a street in the North End of Boston.

Washington, D. C., 74

AND TARIFF LEGISLATION SCORED BY TWO SENATORS

AGRICULTURE IN HORSE PUGIL —WHEELER

New Bills Aid Only the Big Fellows, Declares the Montana Solon

Chicago, July 8 (INS)—Senators Burton K. Wheeler of Montana and Robert M. La Follette of Wisconsin are on their way west to make an extensive investigation of Indian reservations.

"The senators will take testimony to Wisconsin, Oklahoma, the Dakotas and Montana. Charges have been made that the original American Indians have been mistreated and that the government has not done its part in their education."

While Senator La Follette has been to discuss his views on any subject, his colleague from Montana did better.

"I'll have my say on the tariff when we meet again," the son of the first Senator La Follette commented. "And the time will come for me to say something about the killings too."

Senator Wheeler wants the law enforcement commission to take all evidence in the open "so that the public may know just how often conditions are."

"The farmer will be worse off with the legislation passed by the recent session of Congress than he was before," was the way the Montana man sized the situation up.

"The farmer won't benefit or be such as a single jot from the tariff reform bill," he said, "and the tariff bill is going to make things worse."

"The tariff was conceived for the benefit of the big fellows and it has to be torn. All this is made plain in the hearings being held."

Continued from First Page

letter from the same source, "was" ing.

"I had done to your boy what I wanted to do the money first."

"The man with whom the family had trouble some time ago, when he threatened to do the parents a mischief."

"I will hurt you where it hurts the most. I will take your child from you."

The letter also threatened that "your boy's head will be cut off and put down in the street in front of your doorway."

The body of the boy was found on the marshes just over the Revere line and about 100 feet from the Salem turnpike.

Dr. Peterson, 19, of Beaver st., Franklin, who had stopped his car to seek cat-o-nine-tails in the marsh, made the discovery.

FOUND NEAR CREEK

"The body was on the bank of one of the many creeks leading to the marshland, but police said it was not possible to get the body to float in from the sea and be deposited on the bank."

Dr. Nathaniel P. Butler, a medical examiner, was performing an autopsy today in the morgue of the city of Boston.

On his report will depend whether or not state detectives are called into the case.

The boy was last seen, according to his complete record, in the market, when he was in an automobile with a girl and the other boys did not recognize him.

GEN. JACKSON'S SUICIDE TO NEW YORK

Three Brigadiers-General in All Transferred to the War Department

Washington, July 8 (INS)—The war department today shifted three brigadier-generals.

William P. Jackson was relieved of command of the first coast artillery district at Boston effective Nov. 12, in order to command the second brigade at Madison Barracks, New York.

Charles E. Kilbourne was relieved of command of the second brigade and ordered to Manila, P. I., for assignment to the harbor defenses and Subic Bay. He will sail about November 12.

John H. Johnson was relieved of command of the third brigade and ordered to Manila, P. I., for assignment to the harbor defenses and Subic Bay. He will sail about November 12.

PRINCE MURAT MARRIES MRS. RUTHERFORD

Only Intimate Friends See Daughter of W. K. Vanderbilt Wed for McCauley

Paris, July 8 (AP)—The wedding of Mrs. Margaret Rutherford, former wife of Sir Paul Dukes, and Prince Charles Murat, third son of Prince Joachim Napoleon Murat, was celebrated today at the Church of St. Francis the Xavier.

Mrs. Rutherford is the daughter of Mrs. W. K. Vanderbilt. The bride's witnesses were her cousin, Alan Rutherford, and Jacques Halperin, husband of the former Countess Vanderbilt. The Duc d'Enghien, the prince's brother, Prince Joachim, appeared for him.

The starting disquiet of an attempt to kidnap Assistant District Attorney Robert Morgan McCauley of New York City, caused a stir today in Boston, his native city.

Under arrest awaiting a hearing tomorrow is Frank Panicle, who was trapped in McCauley's office as he was trying to persuade the official to accompany him on a ride, for the purpose, police believe, of "rubbing him out" in the approved fashion of gangland.

Behind the move, authorities have indicated, are the henchmen of Broadway racketeers, who have found McCauley's activities a handicap to their practices. McCauley is the brother of Dr. Walter C. McCauley, unsuccessful candidate for mayor of Boston four years ago.

The arrest escaped the usual channels of reports to police headquarters. McCauley himself failed to appear in court when the prisoner was arraigned. The arresting detective avoided all questions from reporters. Bail was set at only \$100,000.

"This man attempted to kidnap my son, including me with false promises to get into his automobile and go to North White Plains on the street car," McCauley said in a divorce suit. McCauley declared the kidnapping attempt a friend's divorce suit plan but became suspiciously prearranged, McCauley's immediate departure in an automobile to the residence of his client.

Until four months ago, when they were taken up his homicide department to the accompaniment of rumors of attempted extortion by his aide, McCauley had charge of the prosecution of cases in homicide court. But whether or not he suspected a gang vengeance plot or the state of affairs in the room of William H. McSwiggen in Chicago, McCauley at this point stepped into the room and phoned police headquarters.

SAVED AT FIRE WEST END

A formal inquiry will be made into the fire in the Chambers Block, an eight-family tenement house, 242-244 Chambers st., West End, which drove 60 persons to the street early today.

An investigation of the fire was made by Fire Inspector John E. Seaton.

"The origin of the fire is doubtful," he said, "but it was undoubtedly a formal inquiry in connection with the case."

There have been a few fires in the vicinity lately. In the past year the origin of at least one fire was traced to a cigarette.

Twenty persons, including 15 children, were carried to the hospital by the fire.

Staring in the heart of a congested tenement section, menaced an entire area of densely populated property before it was brought under control.

An investigation as to the cause of the fire will be started by the state fire marshal's office today.

After routing the tenants and carrying several to the street, Patrolman Jacob J. Berner of the Joy at station collapsed, overcome by smoke, and was taken in the police auto to the station house.

Patrolman Berner was joined by Patrolman Frank T. Murphy, Joy at station, who went through the flames to the main entrance.

Both officers carried out members of families who were unable to leave their upper tenements.

Agred persons in the upper floors were carried out, some over the fire escape. All were taken to the hospital.

The fire was under control. Fearing spread of the fire persons in nearby tenements fled to the street.

First floor of the house was occupied by Mr. and Mrs. Alexander Woloski and four children.

The second floor was occupied by Mr. and Mrs. I. Goldberg and two children and the family of Isaac Goldstein.

The families of Harry Kabanovits and his wife and a neighbor were on the fourth floor.

Cancer Is on Increase; Urge Big Hospital

Chicago, July 8 (INS)—A million-dollar hospital for the exclusive treatment of cancer, victims was urged today by Dr. Karl A. Meyer, who has just returned from a three-month tour of Europe's principal medical institutions.

"Cancer is the only disease which is increasing," he said. "And instead of searching for a cure we should devote all our energies to those men and women stricken with the disease."

Dr. Meyer said that in Europe the cancer patient is not kept in a hospital for long periods but is treated in his own home. "Cancer is the only disease which is increasing," he said. "And instead of searching for a cure we should devote all our energies to those men and women stricken with the disease."

WILDEY SAVINGS BANK

25 Boylston St., Boston

DEPOSITS GO ON INTEREST

JULY 15

JOIN OUR 1830 VACATION CLUB

These 500 Titles Will Be Withdrawn July 31

Drastic Change of Policy Compels Us to Withdraw 500 Little Blue Books—These 500 Titles Will Be Available at 5c Each Until Midnight of July 31, 1929
—In Spite of the Fact That These 500 Titles Are Among the Most Popular Books in the Series, All 500 MUST BE WITHDRAWN to Make Room for the New Series We Are Working on—You Have Until Midnight of July 31, 1929, to Take Your Pick of These 500 "Best Sellers" at Only 5c per Book Post-paid to Any Address!

HERE ARE THE 500 BOOKS—YOUR CHOICE 5c EACH UNTIL JULY 31!

UNTIL JULY 31, 1929

WHY THESE 500 LITTLE BLUE BOOKS ARE TO BE WITHDRAWN
DURING the past eight months we have made numerous publishing experiments. We have sold over 250,000 of each of High School Courses at \$2.50 per set. Other sales indicate that we should at once switch over to strictly educational books—High School, Grade School, College, and University Books. We shall, after July 31, 1929, practically become a correspondence school, issuing textbooks at 5c per copy. Meanwhile, here are 500 books which must be disposed of in order to release our presses and warehouses for the new program. . . This sale does NOT mean that we are discontinuing the Little Blue Books, of which we have sold over 100,000,000 in ten years. This sale simply means that: On July 31, 1929, we shall withdraw the 500 Little Blue Books listed on this page. This will still leave us over 1,000 different titles, of which a complete list will be sent with your order. . . Notice that these are POPULAR books—good sellers—many of them "best sellers." But we are changing our editorial policy, so they must be cleared out by midnight of July 31, 1929. This is your LAST CHANCE to get copies of the 500 books listed on this page.

WHAT IS A LITTLE BLUE BOOK?

A Little Blue Book is one of a series of pocket-sized books, of which the following 500 titles are to be withdrawn from the list on July 31, 1929. Each Little Blue Book is 3½ inches in size, printed in 8-point type (about the size used in your daily newspaper) and is bound in neat blue card covers. The books run to 64 pages each, averaging 100 words per page. . . This sale does NOT mean that we are discontinuing the Little Blue Books, of which we have sold over 100,000,000 in ten years. This sale simply means that: On July 31, 1929, we shall withdraw the 500 Little Blue Books listed on this page. This will still leave us over 1,000 different titles, of which a complete list will be sent with your order. . . Notice that these are POPULAR books—good sellers—many of them "best sellers." But we are changing our editorial policy, so they must be cleared out by midnight of July 31, 1929. This is your LAST CHANCE to get copies of the 500 books listed on this page.

From Watch Tower

HAVE you tried the new native iceberg lettuce? While the heads are not always as solid as the western iceberg variety, the leaves are greener and my family seems to prefer it to the more familiar varieties of the native lettuce. Celery, in special wrappings in a luxury at 25¢ a bunch but it is a delicious addition to salads and creamed dishes to intrigue summer appetites.

Southern white corn is offered in varying quality. I'm unpopular with my vegetableman because I insist on peering beneath the coverings of each ear, not caring for wiggly worms in vegetables. Near by farmers are sending in corn watering summer squash, green butter beans, white from without. Delicious corn milk, onions selling at 12¢ a lb. a lb. rather attractive bit of color for summer salads.

Watermelons and cantaloupes are abundant and to our berry list has been added currants and gooseberries—the currants at 25¢ a quart basket, coming from New York state. It is hard to find a grapefruit for the 15-day diet but perhaps the new apples from the south retailing for 10 to 12¢ a lb. may help make up the deficit.

Powd and duck are good meat type (read rapidly disappearing from mortal view). And swordfish 1.50 a lb. in a large market and fish counters. Sliced salmon is 45¢.

50¢ a lb. Massachusetts special eggs are retailing at 60¢ a dozen.

Good Food Values in and Around Boston

DAILY DIET DICTUMS

AN 18-DAY DIET, originally prepared by a famous specialist for an equally famous film star, removes superfluous pounds quickly and safely. Last 18 lbs. in 18 days with a diet that includes steak, chops, lobster and whatnot. I'll gladly send you a copy if you didn't clip yours from this paper.

A PITCHER OF PUNCH FOR PORCH PARTIES is quickly and deliciously made if you use for a foundation a syrup made from fresh fruit juices. Lime and lemonade, orange lemonade, or a blending of many fruits in a luscious punch combination. Shall I send you recipes for Hawaiian Nectar, Sparkler, Hebe Blend?

THE ART OF COSTUME CLEANSING is told in a booklet you can obtain free on request. Tells how to remove spots without removing the dress. Dainty white powder cleanser removes grease, beverage stains, perspiration and other spots from even the finest fibers or silks. And safety! Leaves no rings. Wonderful for hats, furs, etc. 50¢ in shaker box.

THREE CHEERS! Something truly new in a sandwich spread. A daintily seasoned blend of choicest calves liver. And we all know the important place liver holds in our diet. Even folks with an anti-liver complex will embrace about sandwiches made with this spread. And so reasonable at only 14¢. My favorite on this fresh bread or between crispy crackers.

OH! SAY DID YOU SEE the wonderful combination offer of a famous electric percolator and automatic table timer at a greatly reduced price! Table timer makes every electric appliance automatic. Makes coffee just right every time. Can be used with waffle iron, grill, table stove, electric iron, washing machine, radio, etc. Set it for any time between 2 and 20 minutes. The percolator makes perfect coffee by hot drip method. Extracts every bit of flavor from the coffee grounds. Has attractive green handle and green silk cord. Finished in polished nickel. Simply the timer is \$6.50, the percolator \$12. Both for \$14.95.

BUBBLES OF GOODNESS burst from a favorite ginger ale. Blended for a delicious beverage, not merely as a "mixer." A year round favorite with particular people. And I can vouch for the purity of the ingredients and the sanitary condition of the plant. Other members of this beverage family include a sparkling grape that's in a class by itself. You'll always find a case in my kitchen.

MOTHS NEVER TAKE A VACATION. They're always on the job, eating at your expense, sleeping in your choicest clothes and furnishings. Hang a can of a certain sure and safe exterminator in your closet, or a bag in your wardrobe. Moths will take a permanent vacation. Absolutely harmless. Odor disappears while you are dressing.

WHEN GUESTS SURPRISE YOU, surprise them with a surprise assortment of luscious cookies and cream-filled sandwiches. A full pound for 38¢. No blanks in this surprise package.

GOOD SKILLETS ARE A NECESSARY PART of every camp and cottage cooking equipment. A pair of polished heavy iron skillets (in two sizes) are lasts. Ideal for a lifetime. And mighty reasonable at \$1 a set.

YOU CAN AFFORD TO USE wadded paper freely if you buy it where you get four fat rolls for 25¢ (50 sheets to a roll.) Try it for keeping lettuce and meat fresh in your ice box, as well as for its more usual lunch box and pan-lining uses.

ENDS PAIN, DOESN'T STAIN is the slogan of a certain efficient sunburn remedy. Brings cooling, soothing relief immediately. Quickly heals even a bad burn. Why suffer needlessly? Apply this dainty snow-white grassless cream promptly and end the sunburn pain.

CLIP AND CHECK THE COLUMN and send in with loose 3¢ stamp and complete address for prompt information on one or all these items.

Faithfully yours,

Marttha Lee

The Camper Says—

"Da Costa Bottled Coffee solves the problem of camping, for this delicious coffee can be prepared instantly, hot or cold. Goodbye forever to messy coffee pots!"

Campers and picnickers are most enthusiastic over Da Costa Bottled Coffee. If ice is not procurable, use cold spring water.

Da Costa
BOTTLED
Coffee

Pure, concentrated coffee in liquid form. Contains preservative. Guaranteed under the U.S. Food and Drug Laws. LAST WORD IN COFFEE.

HOT WEATHER VARIATION ON CORNED BEEF HASH—MARTHA LEE

THIS READY-TO-HEAT-AND-EAT CORNED BEEF HASH HAS MANY USES

THIS READY-TO-HEAT-AND-EAT CORNED BEEF HASH IS ELICIOUS IN CROQUETTES AND AU GRATIN DISHES

HOW TO CAN BY OPEN KETTLE METHOD

DON'T let anyone tell you that "no one does any canning any more!" Send them right down to me to see the hundreds of letters I receive each week asking for canning suggestions and directions.

And each year there seems to be a loss-up between the popularity of the open kettle method or the cold pack method of canning. Today I'm answering a few of the questions asked in connection with the first method.

1st—Be sure that all food is in perfect condition and not over ripe.

2nd—Vegetables should be young and both fruit and vegetables fresh picked. Two hours from the garden to the kettle is a good thing.

3rd—Clean the fruit thoroughly, and prepare as for cooking.

4th—Sort fruits and vegetables to be as nearly uniform in size as possible. If blanching is necessary, blanch only a small amount at a time.

5th—Place the food in a deep kettle and cook until tender. Add sugar or salt as desired.

6th—Place the sterile jar in a shallow pan containing hot water, to eliminate breakage.

7th—Place the boiling hot food in the tested sterilized jar.

8th—Fill the jar to over-flowing with hot syrup or liquid accumulated during the cooking period.

9th—Invert the jar to cool at intervals. Avoid a draft but cool as quickly as possible. To prevent the berries from floating place the jar on its side and while it is cooling roll it soon.

10th—Wipe off jars, label and stand in a cool, dark place.

11th—Cold pack suggestions coming complete.

12th—Place the tested rubber on a jar, and screw or clamp down bottle cover until the seal is complete.

13th—Invert the jar to cool at intervals. Avoid a draft but cool as quickly as possible. To prevent the berries from floating place the jar on its side and while it is cooling roll it soon.

14th—Wipe off jars, label and stand in a cool, dark place.

15th—Cold pack suggestions coming complete.

16th—Clean the fruit thoroughly, and prepare as for cooking.

17th—Sort fruits and vegetables to be as nearly uniform in size as possible. If blanching is necessary, blanch only a small amount at a time.

18th—Place the food in a deep kettle and cook until tender. Add sugar or salt as desired.

19th—Place the sterile jar in a shallow pan containing hot water, to eliminate breakage.

20th—Place the boiling hot food in the tested sterilized jar.

21st—Fill the jar to over-flowing with hot syrup or liquid accumulated during the cooking period.

22nd—Invert the jar to cool at intervals. Avoid a draft but cool as quickly as possible. To prevent the berries from floating place the jar on its side and while it is cooling roll it soon.

23rd—Wipe off jars, label and stand in a cool, dark place.

24th—Cold pack suggestions coming complete.

25th—Place the tested rubber on a jar, and screw or clamp down bottle cover until the seal is complete.

26th—Clean the fruit thoroughly, and prepare as for cooking.

27th—Sort fruits and vegetables to be as nearly uniform in size as possible. If blanching is necessary, blanch only a small amount at a time.

28th—Place the food in a deep kettle and cook until tender. Add sugar or salt as desired.

29th—Place the sterile jar in a shallow pan containing hot water, to eliminate breakage.

30th—Place the boiling hot food in the tested sterilized jar.

31st—Fill the jar to over-flowing with hot syrup or liquid accumulated during the cooking period.

32nd—Invert the jar to cool at intervals. Avoid a draft but cool as quickly as possible. To prevent the berries from floating place the jar on its side and while it is cooling roll it soon.

33rd—Wipe off jars, label and stand in a cool, dark place.

34th—Cold pack suggestions coming complete.

35th—Clean the fruit thoroughly, and prepare as for cooking.

36th—Sort fruits and vegetables to be as nearly uniform in size as possible. If blanching is necessary, blanch only a small amount at a time.

37th—Place the food in a deep kettle and cook until tender. Add sugar or salt as desired.

38th—Place the sterile jar in a shallow pan containing hot water, to eliminate breakage.

39th—Place the boiling hot food in the tested sterilized jar.

40th—Fill the jar to over-flowing with hot syrup or liquid accumulated during the cooking period.

41st—Invert the jar to cool at intervals. Avoid a draft but cool as quickly as possible. To prevent the berries from floating place the jar on its side and while it is cooling roll it soon.

42nd—Wipe off jars, label and stand in a cool, dark place.

43rd—Cold pack suggestions coming complete.

44th—Place the tested rubber on a jar, and screw or clamp down bottle cover until the seal is complete.

45th—Clean the fruit thoroughly, and prepare as for cooking.

46th—Sort fruits and vegetables to be as nearly uniform in size as possible. If blanching is necessary, blanch only a small amount at a time.

47th—Place the food in a deep kettle and cook until tender. Add sugar or salt as desired.

48th—Place the sterile jar in a shallow pan containing hot water, to eliminate breakage.

49th—Place the boiling hot food in the tested sterilized jar.

50th—Fill the jar to over-flowing with hot syrup or liquid accumulated during the cooking period.

51st—Invert the jar to cool at intervals. Avoid a draft but cool as quickly as possible. To prevent the berries from floating place the jar on its side and while it is cooling roll it soon.

52nd—Wipe off jars, label and stand in a cool, dark place.

53rd—Cold pack suggestions coming complete.

54th—Place the tested rubber on a jar, and screw or clamp down bottle cover until the seal is complete.

55th—Clean the fruit thoroughly, and prepare as for cooking.

56th—Sort fruits and vegetables to be as nearly uniform in size as possible. If blanching is necessary, blanch only a small amount at a time.

57th—Place the food in a deep kettle and cook until tender. Add sugar or salt as desired.

58th—Place the sterile jar in a shallow pan containing hot water, to eliminate breakage.

59th—Place the boiling hot food in the tested sterilized jar.

60th—Fill the jar to over-flowing with hot syrup or liquid accumulated during the cooking period.

61st—Invert the jar to cool at intervals. Avoid a draft but cool as quickly as possible. To prevent the berries from floating place the jar on its side and while it is cooling roll it soon.

62nd—Wipe off jars, label and stand in a cool, dark place.

63rd—Cold pack suggestions coming complete.

64th—Place the tested rubber on a jar, and screw or clamp down bottle cover until the seal is complete.

65th—Clean the fruit thoroughly, and prepare as for cooking.

66th—Sort fruits and vegetables to be as nearly uniform in size as possible. If blanching is necessary, blanch only a small amount at a time.

Six-Day Novel of Mystery, Love in the Far Off South Seas

CHAPTER I
JIM, the Englishman, lounged on the veranda, watching the coach from town as it plunged, behind its five horses, over the rocks on the beach below.

The little New Zealand public house was set under the shadow of the hills facing the smooth blue sweep of the Pacific. The coach stopped and a woman alighted. Jim's eyes rested on the newcomer. Hers was a handsome face, but "hard as nails," said Jim to himself. She was tall and graceful with a beautifully shaped head, and fine dark eyes. She gave the impression of a wealthy tourist; but as a servant—a newly arrived English emigrant—had been expected at Whanganui, and a tourist had never yet visited the hotel, the man decided that the well-dressed stranger was the cook. Meanwhile the woman saw nothing but her own sad thoughts. Why had she chosen New Zealand in which to start life afresh, she wondered. She had wanted to get away from everything. Death was what she had really replied for. Oh! how better come along to your room," she said after greeting her. "Do you want to be called Mrs. Brandon or Mary?"

"It doesn't matter," returned Mary. "I don't want a first name for married women usually sound better for the men about the place to call them Miss. Widow, aren't you?" "I lost my husband some time ago," answered Mary. "Can you cook?" "I cooked in France for a Red Cross hospital for over two years." "That's good. There myself and my husband and Mr. Carlson always in the dining-room—Jim Carlson's been on the coast for 10 years and he's been here since we came here—quite one of the family he is." For the next half hour Mrs. Baylis was busy explaining how she liked things down, she had been gone some minutes when a man came in to the door. "My name's Jim Carlson," he said. Ten years of hard drinking had not robbed Carlson's voice of its charm. For one instant Mary felt a sensation of relief. Here at least was an Englishman, he knew the word; noting his unshaven face.

THREE S. CITIZENS ESCAPE JAIL IN ITALY

Graf Zeppelin to Start World Cruise on July 28

WIFE OF SLAYERS VICTIM

Portland, Me., Police Question Others in Murder of Haverhill Man's Wife

Portland, Me., July 8.—Seven persons were questioned by local police today in connection with the brutal slaying of Mrs. Dolphine Silkey, 64, member of the "equatorial settlement" on the coast of the city.

Among others, her estranged husband, George V. Silkey, 44, of Haverhill, Mass., collector who supported her, was being interviewed. Investigation revealed that the woman, who lived in a shack, and was a religious devotee, had \$400 in a local bank. Although separated from her husband for 12 years, she had never instituted divorce proceedings. A son, Frank Warren Silkey of Cleveland, was the victim of a murder some years ago. A second son, Albert T. Silkey of this city, is believed to have been among the last to have seen his mother alive. He visited her on the afternoon of July 4, shortly before she is believed to have been slain. Mrs. Silkey's skull was crushed by a face battered by a piece of iron pipe which was found near the body in her shack. The body was stripped of clothing, her hands and feet bound, and a nightgown was wrapped tightly around the neck. The house was in disorder, with evidences that Mrs. Silkey had fought for her life. The contents of a trunk and suitcase littered the floor of the shack. Besides the son and husband the slain woman is survived by a daughter, Mrs. Edith May Bowe of Salem, N. H.

From France

ITALY ORDERS S. CITIZENS INTO ARMY

Two Are Finally Freed, but the Third, Facing Jail, Flees From Country

Providence, July 8 (AP)—Three American citizens of Italian origin, one of whom was born in this country, fled the prospect on a recent visit to Italy of military service or jail for from one to five years, it was charged on landing here.

The three disembarked from the Italian liner *Stella*, which arrived from Genoa and the *Amor*. They were Sam Cefalu, 24, of Providence, R. I., who said he was a native-born American; Vito Schillo, 28, of Providence, R. I., who said he was a native-born American; and George V. Silkey, 44, of Haverhill, Mass., collector who supported her, was being interviewed. Investigation revealed that the woman, who lived in a shack, and was a religious devotee, had \$400 in a local bank. Although separated from her husband for 12 years, she had never instituted divorce proceedings. A son, Frank Warren Silkey of Cleveland, was the victim of a murder some years ago. A second son, Albert T. Silkey of this city, is believed to have been among the last to have seen his mother alive. He visited her on the afternoon of July 4, shortly before she is believed to have been slain. Mrs. Silkey's skull was crushed by a face battered by a piece of iron pipe which was found near the body in her shack. The body was stripped of clothing, her hands and feet bound, and a nightgown was wrapped tightly around the neck. The house was in disorder, with evidences that Mrs. Silkey had fought for her life. The contents of a trunk and suitcase littered the floor of the shack. Besides the son and husband the slain woman is survived by a daughter, Mrs. Edith May Bowe of Salem, N. H.

Youthful Criminals Increase in Boston

While the annual report of the Department of Correction in New York will show that there has been a gradual decrease in the percentage of criminals in that city between the ages of 16 to 21 years, the situation is directly opposite in Boston, according to Superintendent of Police Crowley.

When reached at his summer home in Hull, Superintendent Crowley said: "For a guess I would say that the arrests of youths between 16 and 21 years has increased in Boston, rather than decreased. I haven't any statistics available here, and I have not consulted the record with such a comparison in mind, but my guess is that most of our arrests are of those between 16 and 21." "And a great many of them are for the most serious crimes, too, such as holdups and automobile thefts. I believe that since 1920, the numbers of such arrests have steadily increased in Boston."

TO HEAD FOR LAKEHURST, N. J. TO BEGIN OFFICIAL TOUR

Los Angeles, July 8.—Arrangements for the Graf Zeppelin to begin its round-the-world trip will take approximately 28 days for the start of the flight is July 28. The Graf Zeppelin will leave Friedrichshafen, Germany, for Lakehurst, N. J., on that date. Dr. Hugo Eckener, its commander, will be accompanied by several representatives of the Luftschiffbau Zeppelin Corporation. The huge craft will officially begin its round-the-world flight from Lakehurst, leaving the New Jersey air field, it will return to Friedrichshafen, by way of Tokyo, Japan thence to Los Angeles, where it will land at the Los Angeles municipal airport, formerly known as the Los Angeles airport.

The Curious Quizzer

Charlestown Folk Answer His Daily Question and Pose for Pictures.

THE QUESTION
Should husbands and wives take separate vacations? MISS ETNA COLLINS, Walker street, asks the question. The husband and wife should agree on where to go. When a decision has been made both should go there together and rest up by forgetting all domestic and business worries. Each should spend the vacation in different places.

N. E. ELKS AT COAST MEET
Los Angeles, Cal., July 8.—A large section of New England, with its rock-bound coast but perchance minus the Puritan atmosphere, has been transported across the continent and has arrived to participate in the opening of the 60th annual convention of the New England Protective Order of Elks. The official delegation from Boston, headed by Tom Brady and numbering 22, established headquarters at the Elks lodge, where they are at the same hostelry as a party of 100 more from New England. A few blocks away, at the Alexandria, another group of New England Elks, friends and relatives, approximately 100, are registered.

MR. JAMES F. PIERCE, Park st.—Vacations should be spent together by husbands and wives as far as possible. If it is possible, where there are small children in the family, the mother should have the help of a maid so that the parents could feel free to seek mutual pleasures together.

Random glimpses over the register revealed visitors from Boston, Brookline, Leominster and Taunton, Mass.; Brattleboro, Vt., and Bangor, Me., but that accounted for only a few of them. Most of today was spent by the delegates in untangling reservations and getting ready for the convention, which will continue through this week.

Peter Fishery, City sq.—When a couple marry they take one another for better or for worse. I take it that includes vacations. Unless there is mutual agreement by a husband and his wife that they would enjoy more happiness for a spell by going to different places at vacation times, I believe they would be better off if they stayed together. When one enjoys anything in the absence of the other, I find it is generally the case that the one who is alone was present.

Southern Cross Off for Athens
Bagdad, July 8.—Capt. Charles King-Smith's airplane *Southern Cross* arrived from Baghdad, where the Australian aviator, who is flying from Sydney to London, took off for Athens today.

Mother O'Donnell, Legion of Honor nurse, is in United States as representative of France at the International Congress of Nurses to be held at Montreal. (International News-reel photo.)

RESCUE 4 WHEN YACHT TIPS

Representative Thomas S. Burton, who is also a member of the Quincy Yacht Clubhouse at Houghs Neck. The capsized craft was the yacht *Rata*, owned by Norman Earle of Rock Island, part of the Houghs Neck district. Wm. Capt. Earle in the boat were Robert and Richard DeVille and their sister, Miss Edith DeVille, all of Rock Island. The *Rata* was towing a disabled yacht belonging to Gilbert Arnold of North Weymouth, and was towing it up Fore River towards the North Weymouth shore. The wind was coming down river from the south, and in tremendous gusts. The *Rata* was struck directly opposite the yacht clubhouse and about half a mile out. The *Rata* was capsized by a sudden squall of wind.

Chicago Pastor Raps Bishop Cannon for Speculation
Chicago, July 7 (AP)—Rev. John Thompson, pastor of Chicago's Temple in a sermon rebuked Bishop James Cardinal Quinn for his reported stock market speculation. "Bishop Cannon has brought reproach on the church of Christ and the entire diocese to him and to all lovers of temperance and prohibition," Mr. Thompson said. "He has given the enemy a good chance to say that the church of Christ is not a church of the future."

All Quiet on the Western Front
